

TECHNICAL DATA SHEET

DMH 620

54-4045 CANFORD LEVEL LIMITED HEADPHONES DMH620 88DBA, WIRED STEREO,
3.5MM PLUG, S/S COILED CABLE

The DMH 620 level limited headphones are lightweight general purpose headphones. The headphones are supra-aural (on ear) closed back and have ear pieces that are swivel mounted to provide a tight seal to the ear. The ear pads are made of a polyurethane leather and the headband has an adjustable elastic to ensure comfortable fit to the head.

The headphones are fitted with limiters that provide level limiting at 88dB(A). For convenience the limiter circuits are incorporated into the earpiece. The headphones come with a 1.5m single sided coiled cable fitted with a 3.5mm jack.

TECHNICAL SPECIFICATION

Impedance:	32 Ω
Frequency response:	20-20kHz
Sensitivity:	90dB SPL/mW +/- 3dB
Weight:	224g
