

Swiss precision for excellent audio quality

**VOICE TECHNOLOGIES**

## Phantom Power Adapter

### VT1126 Electret Phantom Adapter

The VT1126 Phantom adapter of Voice Technologies is a small tool that allows hardwired use of lavalier microphones. It converts Phantom 48V to electret power and outputs the audio as an electronically balanced signal.

Range of models with standard sockets to fit the plugs:

VT1126-TA3/A for TA3 (AKG)  
VT1126-TA4/S for TA4 (Shure)  
VT1126-TA5/L for TA5 (Lectrosonics)  
VT1126-AL6P for Audio Limited 6Pin  
VT1126-M6P for Micron Explorer with 6Pin  
VT1126-M8P for Micron 8Pin System  
VT1126-SK5 for Sennheiser SK50/3000/5000  
VT1126-S1P for Sennheiser 1 Pin  
VT1126-S3.5 for Sennheiser Evolution G2 System
